quality and workmanship

The New Generation of BONZER® Black Can Openers

Mitchell and Cooper has always been at the cutting edge of can opener technology. Our latest range, the BONZER® Black, gives the cleanest and most hygienic cut ever.

Introducing Advanced Hygiene Features

The blades on every BONZER® Black model contain an anti-bacterial component that prevents bacterial growth and the patented quick-release blade carrier is easily removed for efficient cleaning.

All models have dishwasher safe cutting mechanisms and the EZ-Titan is dishwasher safe in its entirety.

All BONZER® Black can openers come with sample packs of Eazi-wipes to ensure cans are clean and germ free prior to opening

Service and Guarantee

BONZER® Black Can openers are manufactured in Great Britain from top quality materials. They are built to last with a five year guarantee when you register online. Replacement blades, wheels and servicing facilities are available.
