quality and workmanship

Introducing the latest Cup Dispenser range from BONZER® with improved features and benefits. Made from the highest quality food grade stainless steel and completely designed and manufactured in the UK.

Each model is subtly styled sharing smooth lines with sleek and slim profiles to save space in your working environment.

Each stainless steel BONZER® Cup Dispenser features a food grade silicone gasket that protects each and every cup from contamination or tampering, ensuring that each cup dispensed is as clean as the last.

The BONZER® Cup Dispenser range allows consistent one cup dispensing everytime, therefore minimising and controlling costs.

Both the Elevator Series and Gravity Series come in four sizes to accommodate a multitude of cup diameters ranging from a rim size of 69mm up to 98mm.

three steps to

1 wall or counter?

BONZER® Gravity-Series

If you have restricted surface space, the new BONZER® Gravity fed Cup Dispenser provides a smooth and sleek design solution that can be easily fitted to any wall space, for simple and easy access during service. The unit creates stylish and hygienic protection for your cups whatever the size.*

Vertical

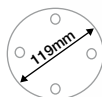

Can be mounted Vertically only

BONZER® Elevator-Series

Designed to fit neatly into or underneath your counter space, the BONZER® Elevator Cup Dispenser provides a low profile design space saving solution that blends seamlessly into any design concept.*
